

BABY MILK
ACTION

CAMPAIGN

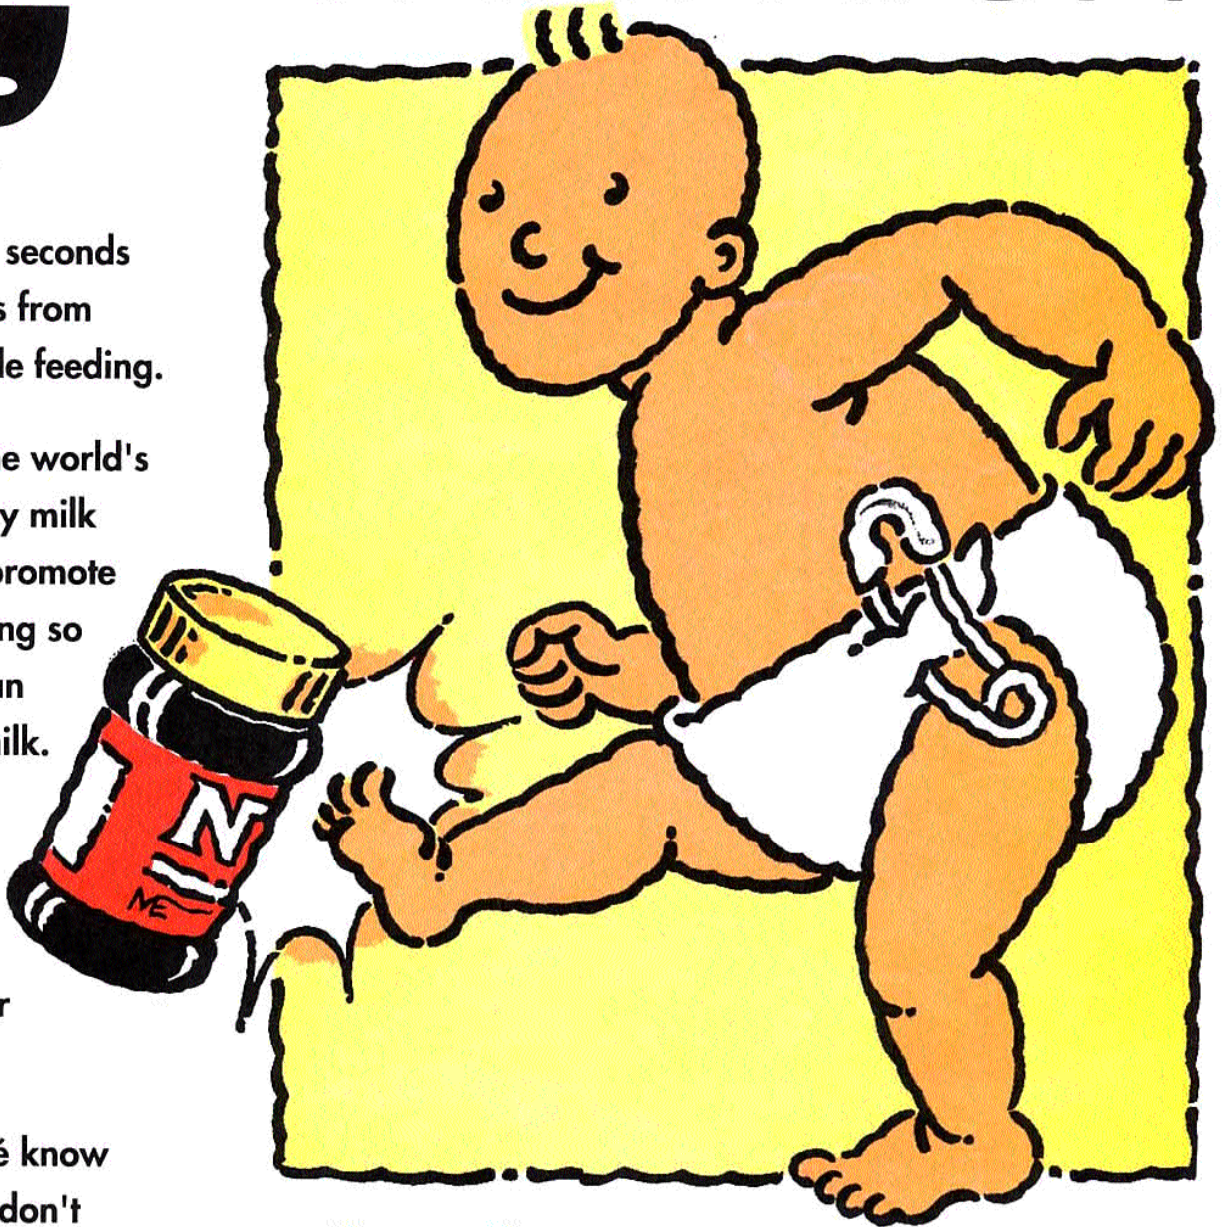

- Every 30 seconds a baby dies from unsafe bottle feeding.

- Nestlé, the world's largest baby milk company, promote bottle feeding so that they can sell more milk.

- Breast-feeding is free, safe and best for babies.

- But Nestlé know that if they don't get babies on the bottle, they don't do business.

- We can't let them get away with it -
BOYCOTT NESCAFE!

AGAINST NESTLÉ

GIVE NESCAFE THE BOOT!
