NATIONAL HEALTH

“ The NCT is pleased to join the Neslé boycott as a sign of its outrage against a company which continues to put a higher value on commercial profits than babies’ health and well-being.”

The National Childbirth Trust
"It is vital that new mothers should be given the best possible advice. This should definitely include the promotion of breastfeeding as the best possible start for their babies. It is iniquitous that multinationals, of which Nestlé is a prime example, should ride roughshod over the International Code in order to increase their profits. Please join the worldwide boycott against Nestlé."

Julie Walters

"Nothing could be more important for future generations than the way young babies are fed. I am encouraging all our supporters in the Labour movement not to buy Nescafé until Nestlé stops undermining breastfeeding."

Glenys Kinnock MEP, Chair of One W orld

"Europe’s largest food company has forgotten why humans need food. Instead of providing food for necessary products for profit."

Tim Lobstein, The Food Commission
